

FY2022

Centers for Disease Control and Prevention
Fiscal Year 2022 Grants Summary Profile Report for

New Mexico

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in New Mexico. Refer to the "About the Data" section below for important qualifying statements about the data.

2022 Population Estimate: 2,115,877
Timeframe: 10/01/21 - 09/30/22

Table with 3 columns: CATEGORY, OBLIGATED AMOUNT, PERCENTAGE. Lists various CDC grant categories and their corresponding amounts and percentages, ending with a Grand Total of \$88,922,199 (100.0%).

Table with 2 columns: CATEGORY & SUB-CATEGORY, OBLIGATED AMOUNT. Provides a detailed breakdown of the obligated amounts for the top categories, such as Agency for Toxic Substances and Disease Registry (\$339,937) and Chronic Disease Prevention and Health Promotion (\$11,332,618).

FY2022

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Health Promotion	\$166,667
Heart Disease and Stroke	\$819,730
Heart Disease and Stroke - PPHF	\$502,655
Oral Health	\$12,567
Prevention Research Centers	\$750,000
Racial and Ethnic Approach to Community Health (REACH)	\$1,995,279
Safe Motherhood/Infant Health	\$458,705
School Health	\$365,000
Social Determinants of Health	\$5,000
Tobacco - PPHF	\$1,439,197
Cross-Cutting Activities and Program Support	\$6,595,036
American Rescue Plan Act (ARP)	\$647,022
Coronavirus Aid, Relief, and Economic Security Act	\$2,720,547
Coronavirus Preparedness and Response Supplemental	\$627,965
Preventive Health and Health Services Block Grant - PPHF	\$2,599,502
Emerging and Zoonotic Infectious Diseases	\$3,617,626
Advanced Molecular Detection (AMD)	\$27,707
Antibiotic Resistance Initiative	\$975,504
Emerging Infectious Diseases	\$187,512
Epi and Lab Capacity Program - PPHF	\$902,705
Food Safety	\$539,712
Healthcare Associated Infections (HAIs) - PPHF	\$767,572
Quarantine	\$49,866
Vector-borne Diseases	\$167,048
Environmental Health	\$1,718,581
Asthma	\$574,646
Childhood Lead Poisoning	\$281,121
Environmental and Health Outcome Tracking Network	\$615,000
Environmental Health - PPHF	\$100,000
Environmental Health Activities	\$147,814
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$3,250,267
Domestic HIV/AIDS Prevention and Research	\$1,798,696
Infectious Disease and Opioids Epidemic	\$320,126
Sexually Transmitted Infections (STIs)	\$643,352
Tuberculosis (TB)	\$290,937
Viral Hepatitis	\$197,156
Immunization and Respiratory Diseases	\$3,748,246
Immunization and Other Respiratory Diseases	\$3,118,243

FY2022

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Influenza/Influenza Planning and Response	\$630,003
Injury Prevention and Control	\$6,991,064
Drug Free Communities	\$925,000
Firearm Injury and Mortality Prevention Research	\$165,000
Injury Prevention Activities	\$300,000
Intentional Injury	\$382,034
NVDRS	\$255,091
Opioid Overdose Prevention and Surveillance (CAT B)	\$4,963,939
Occupational Safety and Health	\$1,589,954
Mining Research	\$1,458,390
Other Occupational Safety and Health Research	\$131,564
Public Health Preparedness and Response	\$6,949,221
Public Health Emergency Preparedness Cooperative Agreement	\$6,949,221
Public Health Scientific Services (PHSS)	\$22,000
Surveillance, Epidemiology, and Informatics	\$22,000
Public Health Social Services Emergency Fund (PHSSEF)	\$9,149,669
PHSSEF COVID-19 Activities	\$9,149,669
Vaccines for Children	\$33,457,980
Grant Awards	\$1,349,711
Vaccine Purchases	\$32,108,269
Grand Total	\$88,922,199

Centers for Disease Control and Prevention Fiscal Year 2022 Grants Detail Profile Report for New Mexico

FY2022

Data Included

- The grants and cooperative agreements data in this report include funding obligated and awarded (i.e., obligated funds) domestically to States, the District of Columbia (DC), U.S. Territories and Freely Associated States in fiscal year 2022 (FY22; 10/1/21 to 9/30/22) from CDC's domestic appropriations.
- In addition to including the value of cooperative agreements for immunization programs, the data also includes the value of vaccines purchased and provided through the Vaccines for Children program.
- Because the data includes funds obligated in FY22, it may include funding authorized through legislation passed in previous years, but only the amount actually obligated in FY22.
- The funding data is categorized by CDC budget line (i.e., by the CDC appropriation account used to make the investment), primarily as shown in CDC's and the Agency for Toxic Substances and Disease Registry's (CDC/ATSDR's) [FY22 Operating Plans](#). Additional funding categories and subcategories also were included to capture COVID-19 supplemental funding obligated in FY22, whether directly appropriated to CDC or through funding transfers from the Department of Health and Human Services (HHS), and funds transferred from HHS for the Drug Free Communities Support program. The data also includes funding provided through the American Rescue Plan Act of 2021 (Public Law No: 117-2).

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from HHS; as noted in the "Data Included" section, there were two exceptions: funding transferred from HHS to CDC for the COVID-19 response and the Drug Free Communities Support program were included), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

Therefore, the funding profiles data do not reflect CDC's total appropriations.

Data Sources

- Funding data is from the CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines for Children vaccine purchase data)

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states, DC, and U.S. territories and freely associated states by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
 - CDC has many different grant types with varying application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
 - Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
 - CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
 - In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC's budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
