

FY2023

Centers for Disease Control and Prevention
Fiscal Year 2023 Grants Summary Profile Report for

Wyoming

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in Wyoming. Refer to the "About the Data" section below for important qualifying statements about the data.

Table with 3 columns: CATEGORY, OBLIGATED AMOUNT, PERCENTAGE. Rows include Birth Defects, Chronic Disease Prevention, Cross-Cutting Activities, etc., with a Grand Total row.

Table with 2 columns: CATEGORY & SUB-CATEGORY, OBLIGATED AMOUNT. Rows include Birth Defects, Chronic Disease Prevention, Cancer Prevention, etc.

FY2023

CATEGORY & SUB-CATEGORY	OBLIGATED AMOUNT
Cross-Cutting Activities and Program Support	\$3,669,734
American Rescue Plan Act (ARP)	\$2,719,541
Coronavirus Preparedness and Response Supplemental	\$170,440
Preventive Health and Health Services Block Grant - PPHF	\$352,464
Public Health Infrastructure and Capacity	\$427,289
Emerging and Zoonotic Infectious Diseases	\$803,201
Advanced Molecular Detection (AMD)	\$9,621
Antibiotic Resistance Initiative	\$184,725
Epi and Lab Capacity Program - PPHF	\$304,029
Food Safety	\$244,141
Harmful Algal Blooms	\$22,222
Vector-borne Diseases	\$38,463
Environmental Health	\$833,775
Asthma	\$368,775
Childhood Lead Poisoning	\$249,641
Environmental Health - PPHF	\$215,359
HIV/AIDS, Viral Hepatitis, STI and TB Prevention	\$1,822,100
Domestic HIV/AIDS Prevention and Research	\$1,233,753
Infectious Disease and Opioids Epidemic	\$33,898
Sexually Transmitted Infections (STIs)	\$227,575
Tuberculosis (TB)	\$162,932
Viral Hepatitis	\$163,942
Immunization and Respiratory Diseases	\$1,453,522
Immunization and Other Respiratory Diseases	\$1,150,402
Influenza/Influenza Planning and Response	\$303,120
Injury Prevention and Control	\$2,957,506
Drug Free Communities	\$500,000
Intentional Injury	\$323,286
NVDRS	\$181,687
Opioid Overdose Prevention and Surveillance (CAT B)	\$1,952,533
Public Health Preparedness and Response	\$5,205,186
Public Health Emergency Preparedness Cooperative Agreement	\$5,205,186
Public Health Scientific Services (PHSS)	\$219,996
Surveillance, Epidemiology, and Informatics	\$219,996
Public Health Social Services Emergency Fund (PHSSEF)	\$17,331,013
PHSSEF COVID-19 Activities	\$17,331,013

FY2023

CATEGORY & SUB-CATEGORY

OBLIGATED AMOUNT

Vaccines for Children	\$6,053,226
Grant Awards	\$910,780
Vaccine Purchases	\$5,142,446
Grand Total	\$45,886,088

Centers for Disease Control and Prevention Fiscal Year 2023 Grants Detail Profile Report for Wyoming

FY2023

Data Included

- The grants and cooperative agreements data in this report include funding obligated and awarded (i.e., obligated funds) domestically to States, the District of Columbia (DC), U.S. Territories and Freely Associated States in fiscal year 2023 (FY23; 10/1/22 to 9/30/23) from CDC's domestic appropriations.
- In addition to including the value of cooperative agreements for immunization programs, the data also includes the value of vaccines purchased and provided through the Vaccines for Children program.
- The funding also includes transfers from the Department of Health and Human Services (HHS) from the Public Health and Social Services Emergency Fund (PHSSEF) for domestic COVID-19 and American Rescue Plan Act related purposes and funds transferred for the Drug Free Communities Support program.
- The data also includes funding provided directly to CDC through the American Rescue Plan Act of 2021 (Public Law No: 117-2).
- Because the data includes funds obligated in FY23, it may include funding authorized through legislation passed in previous years, but only the amount actually obligated in FY23.
- The funding data is categorized by CDC budget line (i.e., by the CDC appropriation account used to make the investment), primarily as shown in CDC's and the Agency for Toxic Substances and Disease Registry's (CDC/ATSDR's) [FY23 Operating Plans](#). Additional funding categories and subcategories were included related to HHS transfers.

Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from HHS; as noted in the "Data Included" section, there were two exceptions: funding transferred from HHS to CDC for the COVID-19 response and the Drug Free Communities Support program were included), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

Therefore, the funding profiles data do not reflect CDC's total appropriations.

Data Sources

- Funding data is from the CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines for Children vaccine purchase data)

Centers for Disease Control and Prevention Fiscal Year 2023 Grants Detail Profile Report for Wyoming

FY2023

Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states, DC, and U.S. territories and freely associated states by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
 - CDC has many different grant types with varying application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
 - Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
 - CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
 - In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC's budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
